Anugya Sharma

Davis, CA

984-284-5018 | anugya.sharma42@gmail.com | anugyasharma.com | linkedin.com/in/anugya-sharma-844518293/

Education

University of California Davis

MS in Computer Science *Jun 2027*

- **GPA:** 3.82
- **Relevant Courses:** Operating Systems ECS251 (grade A), Computer Networks ECS252 (grade A)

University of London

BSc in Computer Science *Nov 2023*

- **GPA:** First Class Honours

Work Experience

UC Davis *Fall 2026*

Teaching Assistant for ECS150 Operating Systems

Research

Evaluation of static and dynamic thread pools

University of California Davis *2026*

- Operating Systems Project in C++

Optimizing User Interface Design for Enhanced Accessibility: A Focus on Elderly Users

University of London *2022*

- Research into usability, functionality, efficiency, and satisfaction from user interface design of apps for our target demographic (elderly users)
- **Technical Skills:** Javascript, React, Jira, Chakra UI, Dexie.js, Git, React Router

Early signals of success: Forecasting sustainability in OSS forks

University of California Davis *2026*

- Source code management data analysis, Empirical software engineering

Predicting Postgraduate Academic Success: A Deep Learning Approach Using GRE Scores, GPA, and National Origin

University of London *2023*

- Supervised machine learning research project involving data collection, cleaning, and modeling in Python

Projects

Deep reinforcement learning for game playing AI

University of London *2022*

- Used deep reinforcement learning to train AI Atari game playing agent
- Used Q-learning model to train an agent to play breakout atari game.
- **Technical Skills:** OpenAI Gym, Keras, TensorFlow

Big data scraping and visualization

University of London *2021*

- Web scraping and data visualization for nutrient content of common foods
- **Technical Skills:** Pandas, Numpy, Selenium, Seaborn, Matplotlib, Scipy

Skills

Programming	C++, C, CloudLab, JavaScript, HTML/CSS, Django, React, SQL (MySQL, PostgreSQL, SQLite), , Python (Pandas, PyTorch, NumPy, Matplotlib, Seaborn, Scikit-learn, Selenium, PyBullet, Keras, Tensorflow),
Software engineering	Test-driven development, Agile, Linux, Git, Figma
Miscellaneous	Adobe Photoshop, Computer Aided Design (AutoCAD, Sketchup)
